

Issue: June 2024

The aim of the Snapshot is to provide a monthly Sector-Led Improvement (SLI) update to DsPH and their public health teams. The Snapshot is produced and managed by Jodie Horton (SW SLI co-ordinator) and Kate Blackburn (SW SLI lead). If you have something that you would like included for the next issue, please get in touch (Jodie.Horton@southglos.gov.uk).

Cardiovascular Disease (CVD) Risk Reduction

As part of our CVD risk reduction SLI priority we aim to facilitate information sharing across South West local authorities, with the aim to improve knowledge on what is happening in the CVD space regionally. Therefore, this month's SLI snapshot will provide links to the presentations that have taken place at the South West CVD Prevention Strategic Oversight Group recently.

Children who fail to meet UK dietary guidelines have worse cardiometabolic health as young adults

A University of Bristol Policy Briefing that breaks down a study that assessed how well UK school-aged children complied to the UK government dietary recommendations and then correlated these results to prevalence of future heart and circulatory health outcomes. With the aim of informing future policies and strategies to reduce emergence of CVD risk factors early in life.

South West Innovation for Healthcare Inequalities Programme (InHIP)

A presentation on Improving access to health care for deprived and high-risk cohorts. Explaining what InHIP is: the problem to address, the aim, addressing it and national impacts so far. "Wave 1" learning is shared from the programme projects with focus on Cornwall and the Isles of Scilly, Somerset and Devon. "Wave 2" objectives are also shared.
